Robots.txt Test

Congratulations! Your site uses a "robots.txt" file.

<https://www.tenanto.in/>

Sitemap Test

Congratulations! Your website has a sitemap file.

<https://tenanto.in/sitemap.xml>

SEO Friendly URL Test

Congratulations! All links from your webpage are SEO friendly.

Deprecated HTML Tags Test

Congratulations! Your page does not use HTML deprecated tags.

Google Analytics Test

Congratulations! Your webpage is using Google Analytics.

Favicon Test

Congratulations! Your website appears to have a favicon.

JS Error Test

Congratulations! There are no severe JavaScript errors on your webpage.

Console Errors Test

This webpage doesn't have any warnings or errors caught by the Chrome DevTools Console.

Social Media Test

Congratulations! Your website is connected successfully with social media.

HTML Compression/GZIP Test

Congratulations! Your webpage is successfully compressed using br compression on your code. Your HTML is compressed from 226.06 Kb to 37.21 Kb (84% size savings). This helps ensure a faster loading webpage and improved user experience.

Site Loading Speed Test

Your website loading time is around 2.6 seconds and this is under the average loading speed which is 5 seconds.

Page Cache Test (Server Side Caching)

Congratulations, you have a caching mechanism on your website. Caching helps speed page loading times as well as reduces server load.

Flash Test

Congratulations! Your website does not include flash objects (an outdated technology that was sometimes used to deliver rich multimedia content). Flash content does not work well on mobile devices, and is difficult for crawlers to interpret.

CSS Minification Test

Congratulations! Your webpage's CSS resources are minified.

Nested Tables Test

Congratulations, your page does not use nested tables. This speeds up page loading time and optimizes the user experience.

Frameset Test

Congratulations! Your webpage does not use frames.

Doctype Test

Congratulations! Your website has a doctype declaration:

<!DOCTYPE html>

URL Redirects Test

Congratulations! Your URL doesn't have any redirects (which could potentially cause site indexation issues and site loading delays).

SSL Checker and HTTPS Test

Your website is successfully using HTTPS, a secure communication protocol over the Internet.

The certificate is not used before the activation date.

The certificate has not expired.

The hostname "tenanto.in" is correctly listed in the certificate.

The certificate should be trusted by all major web browsers.

The certificate was not revoked.

The certificate was signed with a secure hash.

Mixed Content Test (HTTP over HTTPS)

Congratulations, this webpage does not use mixed content - both the initial HTML and all other resources are loaded over HTTPS.

HTTP2 Test

This webpage is using the HTTP/2 protocol.

Safe Browsing Test

This site is not currently listed as suspicious (no malware or phishing activity found).

Server Signature Test

Congratulations, your server signature is off.

Directory Browsing Test

Congratulations! Your server has disabled directory browsing.

Meta Viewport Test

This webpage is using a viewport meta tag.

meta name="viewport" content="width=device-width, initial-scale=1.0"

Media Query Responsive Test

Congratulations, your website uses media query technique, which is the base for responsive design functionalities.

Noindex Tag Test

Your webpage does not use the noindex meta tag. This means that your webpage will be read and indexed by search engines.

Canonical Tag Test

Your webpage does not use the canonical link tag.

Meta Refresh Test

Congratulations, this webpage is not using a meta refresh tag.

SPF Records Test

Congratulations! Your DNS server is using an SPF record.

v=spf1 include:dc-8e814c8572._spf.m.tenanto.in ~all

SEO Issues

HIGH

Some of your website's JavaScript files are not minified!

HIGH

Your website is not using a custom 404 error page. Default 404 error pages result in a poor experience – it can mislead users into thinking an entire site is down or broken, greatly increases the chance they leave your site entirely, and looks unprofessional. By creating a custom 404 error page, you can improve your website's user experience by letting users know that only a specific page is missing/broken (and not your entire site), providing them helpful links, the opportunity to report bugs, and potentially [track the source of broken links in your site](#).

HIGH

<https://tenanto.in> and <https://www.tenanto.in> should resolve to the same URL, but currently do not.

HIGH

The size of your webpage's HTML is **37.21 Kb**, and is greater than the average size of **33 Kb**. This can lead to slower loading times, [lost visitors](#), and decreased revenue. Good steps to reduce HTML size include: using [HTML compression](#), [CSS layouts](#), [external style sheets](#), and [moving javascript](#) to external files.

MEDIUM

Your website is not using cache headers for your CSS resources. Setting cache headers can help speed up the serving of your webpages for users that regularly visit your site.

MEDIUM

Your website is not using cache headers for your JavaScript resources. Setting cache headers can help speed up the serving of your webpages for users that regularly visit your site.

MEDIUM

Your website is not using cache headers for your images. Setting cache headers can help speed up the serving of your webpages for users that regularly visit your site and see the same images. Learn more about [how to add expires headers to your images](#).

MEDIUM

Not all image display dimensions match the natural aspect ratio! Fix aspect ratio issues to avoid distorted images on your site.

MEDIUM

Not all images in this page are properly sized! You are serving images that are larger than needed for the size of the user's viewport.

LOW

We've found 1 email addresses in your page code. We advise you to protect email links in a way that hides them from the spam harvesters.

LOW

Your webpage doesn't take the advantages of HTML Microdata specifications in order to markup structured data. View Google's guide for getting started with microdata.

LOW

Your webpage is using inline CSS styles!
